

2019 GAINESWAY BREEDING SHED FORM
This Form Must Accompany Mare Each Time She Is Bred

Direct Booking: (859) 293-9263 Main Phone: (859) 293-2676 Booking Fax: (859) 299-9371

Breeding Times: **9:00 AM 2:00 PM 5:30 PM**

(Mares late to shed run risk of not being bred in that session.)

Booking Hours: 7:30 AM. - 5:00 PM WEEKDAYS
8:00 AM - 12:00 Noon WEEKENDS and HOLIDAYS

**NOTE: THESE REQUIREMENTS MAY DIFFER FROM THOSE IN INDIVIDUAL SOFTWARE SYSTEMS.
GAINESWAY WILL ADHERE TO THE REQUIREMENTS STATED HEREIN.**

STALLION: _____

MARE: _____ YEAR OF BIRTH: _____ COLOR: _____

SIRE: _____ DAM: _____

OWNER OF MARE: _____

All mares must have proper identification when being presented for breeding (halter or neck strap with mare name on it). We will NOT breed mare without proper I.D.!

ALL first-trip mares to TAPWRIT must have a veterinary certificate stating mare is clean and sound for breeding.

_____ 1. **DOMESTIC MAIDEN** (U.S. & Canada) A negative aerobic uterine culture is required within 30 days of her initial cover and if returning for a third or subsequent cycle. **MARE MUST BE JUMPED BEFORE 1ST TRIP.**

_____ 2. **DOMESTIC BARREN** A negative aerobic uterine culture is required within 30 days of her initial cover and if returning for a third or subsequent cycle.

_____ 3. **DOMESTIC FOALING** (Foaling date _____) A negative aerobic uterine culture is required when returning for a second or subsequent cycle. **NO FOAL HEAT DOUBLES.**

_____ 4. **IMPORTED MAIDEN** Refer to breeding requirements for CEM cultures and CF bloods on reverse side of this form. **MARE MUST HAVE NEGATIVE PRE-BREEDING CF. MARE MUST BE BRED LAST IN SESSION.**

_____ 5. **IMPORTED BARREN & FOALING** (Foaling date _____) Contact the State Veterinarian's Office in Frankfort, KY regarding testing procedures and acquisition of quarantine release for the 2019 breeding season. A copy of the quarantine release must accompany the mare on her first trip to the breeding shed. **A negative aerobic uterine culture is required for barren mares within 30 days of initial cover and for foaling mares on second and subsequent cycle, and barren mares returning for a third and subsequent cycle. **MARE MUST BE BRED LAST IN SESSION.**

_____ 6. **RETURN COVER.** For foaling mares, a negative aerobic uterine culture is required if returning for a second or subsequent cycle. For barren or maiden mares, a negative aerobic uterine culture is required if returning for a third or subsequent cycle. Was mare in foal from her last cover? Yes _____ No _____ Unknown _____

_____ 7. **DOUBLE.** No foal heat doubles. **NO DOUBLES ACCEPTED TO EMPIRE MAKER, TAPIT, & TAPWRIT**

NOTE: All mares bred to Gainesway stallions must be vaccinated for Equine Herpes Virus Type-1 between 10-90 days prior to breeding. Signature below warrants mare has been vaccinated.

Date _____ Signature _____

Boarding Farm _____ Phone # _____

Boarding Farm Email: _____

Veterinarian _____ Phone # _____

Does a Gainesway veterinarian have permission to tranquilize this mare if necessary? Yes _____ No _____
Any other pertinent medical information needs to be disclosed to administering veterinarian prior to tranquilization of mare. Are there any medical conditions of which administering veterinarian needs to be aware?

_____ No _____ Yes (*describe*) _____.

C.E.M. REQUIREMENTS

These requirements are subject to amendment.

MAIDEN MARES OVER 731 DAYS OF AGE AT TIME OF IMPORTATION or MARES IMPORTED FROM COUNTRIES NOT KNOWN TO BE AFFECTED WITH CEM

These mares are not routinely quarantined by The Division of Animal Health. However, they must meet the following testing and treatment requirements prior to entering a Kentucky breeding shed.

Obtain 2 sets of cultures for CEM from the clitoral fossa & clitoral sinuses. The second set of cultures should be obtained at least 72 hours after the first set.

Obtain one sample from the endometrium for CEM culture.

Negative pre-breeding CF test.

Maiden mares must have negative aerobic uterine culture.

The first three mares bred to the same stallion following any import mare must have CF blood drawn within 15-25 days post-breeding. Proof that the CF blood has been drawn must accompany mares returning for a second heat. CF results are mandatory if mare is to be doubled on the second heat or if returning for a third heat.

The imported mares must be bred last in line and prophylactically scrubbed before cover.

MARES IMPORTED FROM COUNTRIES LISTED BY THE USDA AS BEING AFFECTED BY CEM

A quarantine release must accompany the mare on initial cover. No doubles on the first heat.

Obtain a swab from the endometrium for CEM culture. This swab may be obtained with either set of swabs required during quarantine, or in the case of a pregnant mare, this swab should be collected after foaling.

The first three mares bred to the same stallion following an import mare are required to have CF blood drawn 15 to 25 days post-breeding.

The imported mares must be bred last in line and prophylactically scrubbed before cover.

All tests required on mares being bred to Gainesway stallions in 2019 may be processed in labs other than the University of Kentucky Livestock Disease Diagnostic Center as long as they are approved by the Office of the Kentucky State Veterinarian.

If you have any questions, please call the booking office (859) 293-9263 or (859) 293-2676.
